Brunswick, ME  
B.A. double major  
in Studio Art and  
Philosophy  
*cum laude*

Phillips Exeter  
Academy  
Exeter, NH  
Diploma  
with Honors

## SUMMARY

I'm a builder. I've built art and design pieces — from pencil drawings to a large sculpture in New York City's collection of public artwork. And I've built websites to share these pieces. Recently I ramped up my coding skills in a training program for full-stack web development. With my supercharged abilities I'm ready to explore new opportunities and keep flourishing.

## WEB DEVELOPMENT EXPERIENCE

**Web Development Fellow**, General Assembly, May 2018 to August 2018, Providence, RI

- Trained 60+ hours per week in a 13-week Web Development Immersive program, learning modern full-stack programming languages through projects, challenges and studies, with a rigorous curriculum: Programming Fundamentals, The Basics of Product Development, Front-End Web Development, Back-End Web Development, Working with Teams
- Capstone project — *Pattorns*
  - Built full-stack website for users to make visual patterns and save to a NoSQL database
  - Used JavaScript and jQuery for front-end DOM manipulation and event handling
  - Created a custom API using MongoDB, Express and Node.js
  - Developed single-page application with Git version control
  - Locally tested database with cURL scripts before global deployment at Heroku
  - Incorporated Handlebars to display returned data in template format
  - Styled website with responsive design in CSS3 and Sass, plus Bootstrap for modals
  - Deployed website at GitHub account with a custom domain
- Featured project — *RadTabs*
  - Built full-stack website for users to track tasks and save to an SQL database
  - Used JavaScript and jQuery for front-end DOM manipulation and event handling
  - Created a custom API using Ruby, Ruby on Rails and PostgreSQL
  - Users can make AJAX calls to a RESTful API using JSON serialization
- Featured project — *Tic-Tac-Toe*
  - Built a custom front-end JavaScript game engine which consumes a third-party API
  - Users can sign-up with an email address to create an account and record game stats

## RELATED SELECT EXPERIENCE

**Founder & Artist**, Huetown, 2007 to Present, Providence, RI

- Develop front-end website, manage project schedules and create pieces for Huetown: a comprehensive entity for my art and design ventures, comprising a mix of online direct sales, wholesale arrangements and various commissions
- Make original work and custom designs for clients including Warner Music Group, Sub Pop Records, Brown University, Rhode Island Council for the Humanities and ATP Recordings

**Contracted Visual Artist**, NYC Department of Education, 2012 to 2016, New York City, NY

- Built front-end web presence, organized work timetable and managed sizable budget for *Epoch Travelers*, a public sculpture project commissioned by NYC Department of Education in collaboration with NYC Percent for Art Program
- Created original design using hand-drawn and digital techniques, met with project stakeholders and supervised a subcontractor team for engineering and installation
