# Software Development Experience

### **UX Developer**, ARCOS LLC, remote from Rhode Island

April 2021 - Present

- Develop production-quality, front-end software for web and mobile applications using agile
  practices with React, React Native, TypeScript, JavaScript, Postman, npm and Git version
  control, creating reusable, scalable components for multiple company products
- Work remotely on company Engineering team, using design system to build responsive HTML layouts that are adaptive, semantic and accessible with Emotion (CSS-in-JS) and CSS styling
- Make decisions on incorporating new technologies and lead presentations on user experience prototypes with tools such as Adobe XD before implementing UIs as extensible code
- Coordinate with teammates in Engineering, Product, Quality Assurance and Professional Services through Bitbucket, Jira, Slack, Microsoft Teams and Google Workspace

#### Software Developer, Marstone, Inc., Providence, RI

November 2018 - April 2021

- As part of UX team collaborated with designers and researchers to develop responsive, scalable, front-end components for enterprise-level web applications with Linux, Angular, Angular Material, Google Material Design, Bootstrap, TypeScript, JavaScript and Sass
- Developed code in Agile environment via Bitbucket and wrote unit tests with Jasmine test framework and Karma test runner to complete scheduled deliverables within biweekly sprints
- Drove ownership of UX team's work by iterating quickly over design specifications, championing accessibility and ensuring team's steady standing as top closer of sprint tickets
- Effectively presented production-ready improvements at regular, company-wide sprint reviews, communicating business value of features to executives and other non-engineers

#### Web Development Fellow, General Assembly, Providence, RI

May 2018 - August 2018

- Trained full-time in 13-week Web Development Immersive course, learning Programming Fundamentals, Front-End Development (React) and Back-End Development (Node.js)
- Completed full-stack capstone project as a single-page application with Git, wrote JavaScript
  for front-end event handling, created custom API for NoSQL database

## Education

Bowdoin College, Brunswick, ME B.A. double major in Philosophy and Studio Art, cum laude
